PROFESSIONAL EXPERIENCE

Lenovo | *Data Analytics and UX Graduate Intern, AI* | Chicago, US June 2026 – Now

- Conducted EDA using Python and Excel on 60K+ Lenovo customer feedback data, analyzing customer comments, ratings, and review trends across product categories to identify recurring performance patterns.
- Architected an agent-orchestrated pipeline for VoC analysis by pairing deterministic Python with LLM reasoning across signal detection, insight generation, and newsletter output that streamlined data reporting by 80%.

Hyde Park School of Dance | *Business Analytics Consultant* | Chicago, US Feb 2026 – May 2026

- Integrated data from 4 operational platforms (enrollment, ticketing, fundraising) and 30+ raw exports by standardizing data structures, reconciling inconsistent records, and creating a unified view for business analysis.
- Built student enrollment dashboards by defining and tracking KPIs such as student retention, class capacity utilization, and tenure to evaluate class performance; surfaced acquisition gaps across 15+ dance programs.
- Analyzed customers across enrollment and ticketing platforms by segmenting student and external audiences via composite key, uncovering ~40% cross-selling and marketing opportunities.

Antenna | *Media Relations Intern* | New York, US June 2024 – Aug 2024

- Maintained media contact and campaign dashboards by updating editor databases and monitoring media outlet reach, article performance, and project progress to support reporting and client communications.
- Managed media placement projects by pitching healthcare story ideas, coordinating communications among clients and media outlets, and securing 20+ media placements across national and industry publications.

Ogilvy | *Analytics & Consumer Insights Intern* | Shanghai, China July 2023 – Aug 2023

- Developed a data-driven marketing campaign for a healthcare client by conducting patient research, analyzing survey responses, and building Tableau consumer-insights dashboards, driving 50k+ impressions post-launch.
- Conducted A/B testing for e-commerce marketing campaigns by analyzing click-through rate, impressions, and conversion rates across creative variations to inform brand's on-site design and conversion strategy.

Accenture | *Marketing Analytics Intern* | Shanghai, China Oct 2021 – Dec 2021

- Analyzed social media campaign data across 4 platforms in Excel by tracking engagement, impressions, and audience growth to evaluate performance, surfacing a platform strategy that drove ~130% UGC.
- Produced daily social listening reports by monitoring brand mentions, customer sentiment, user engagement, and trending topics across social media platforms to support brand health monitoring.

PROJECTS

E-commerce Database Analyst and Optimization

- Utilized SQL to integrate data from 6 databases to analyze website activity, product performance, and orders
- Analyzed traffic sources (organic search, paid traffic) to evaluate their impact on new and returning users; assessed Ad content performance in driving conversion rates to guide campaign decisions
- Conducted behavior analysis through path analysis and bounce rate evaluation to identify conversion bottlenecks
- Evaluated paid brand vs. non-brand traffic; identified high-conversion channels for budget prioritization
