

EDUCATION

Northwestern University, Evanston, United States Expected Graduation: Dec 2026
Master of Science in Integrated Marketing Communications (Data Analysis Concentration)
Relevant Coursework: Machine Learning, Marketing Models, Data Visualization and Management

New York University, New York, United States Jan 2022 – May 2025
Bachelor of Science in Media, Culture and Communication | Cumulative GPA: 3.81 / 4.0
Relevant Coursework: Digital Marketing, Advertising and Consumer Society, Intro to Computer Programming

PROFESSIONAL EXPERIENCE

Lenovo, *UX Analytics Graduate Intern, AI*, Chicago, IL June 2026 – Aug 2026

- Analyzed 60K+ customer feedback data in Python by examining comments, ratings, and sentiment across product categories to surface recurring product friction and performance trends for cross-functional teams.
- Translated a manual data reporting process into a structured AI use case by defining process flows, input and output logic, and stakeholder goal documents that grounded insights in team-specific business priorities.
- Built an AI-powered VoC pipeline pairing Python with LLM reasoning across signal detection, insight generation, and reporting, which turned raw data into structured insights and cut reporting time by 60%.
- Developed an ROI business case modeling time and cost savings from workflow automation, presenting to Lenovo CX leadership and securing CXO sponsorship for pilot rollout across the organization.

Hyde Park School of Dance, *Business Analytics Consultant*, Chicago, IL Feb 2026 – May 2026

- Integrated data from 4 operational platforms (enrollment, ticketing, fundraising) and 30+ raw exports by cleaning data structures, reconciling inconsistent records, and creating a unified view for business analysis.
- Built enrollment dashboards by defining and tracking KPIs across retention rate, capacity utilization, and student tenure, surfacing acquisition gaps across 15+ programs to guide enrollment strategy.
- Analyzed cross-platform overlap in Excel via composite-key VLOOKUPS between students and external ticket buyers, uncovering ~40% cross-selling and marketing opportunities.

Ogilvy, *Analytics & Consumer Insights Intern*, Shanghai, China June 2023 – Aug 2023

- Delivered end-to-end consumer insights for healthcare clients by conducting patient research, analyzing survey responses, and building Tableau dashboards that informed campaign targeting and creative direction.
- Evaluated A/B tests across 10 creative variants for e-commerce campaigns, measuring CTR and conversion to recommend creative selection and on-site conversion improvements.

Accenture, *Marketing Analytics Intern*, Shanghai, China Oct 2021 – Dec 2021

- Engineered cross-platform digital media measurement framework, tracking engagement, reach, and audience growth to surface a platform strategy that drove ~130% lift on user generated content.
- Standardized performance dashboards for 4 healthcare accounts across 10+ media platforms, tracking spend, pacing, and placement metrics to feed stakeholder-facing reports that guided ongoing campaign optimization.

PROJECTS

Engagement and Retention Analytics | SQL, Tableau | [Portfolio](#)

- Consolidated 68K+ engagement data using SQL across course, exam, and subscription data to track student onboarding, free-to-paid conversion, and course-level engagement metrics.
- Designed cohort and funnel views in Tableau segmenting free versus paid users to surface retention drop-off points, informing course design priorities and subscription monetization strategy.

E-commerce Performance and Channel Analytics | SQL | [Portfolio](#)

- Examined 6 databases across sessions, orders, and campaigns to evaluate channel efficiency, quantifying a 4x desktop-to-mobile conversion gap that informed bid reallocation across paid campaigns.
- Diagnosed conversion funnel bottlenecks across landing pages, product pathing, and billing flow, translating A/B test lift on a redesigned billing page into site optimization and revenue impact recommendations.

LANGUAGES / SKILLS

Language: Fluent in English and Mandarin, Conversational in Portuguese
Software & Tools: SQL, Tableau, Power BI, Python, R, Excel (Power Query, Pivot Tables), Git, LLM APIs
Analytical Skills: EDA, Dashboarding, KPI Design, A/B Testing, Data Integration, Reporting, Statistical Modeling
