EDUCATION

Northwestern University, Evanston, United States

Expected Graduation: Dec 2026

Master of Integrated Marketing Communications (Data Analysis and Media Concentration)

New York University, New York, United States

Jan 2022 – May 2025

Bachelor of Science in Media, Culture and Communication | Cumulative GPA: 3.81 / 4.0

PROFESSIONAL EXPERIENCE

Lenovo | *Data Analytics Intern, AI* | Chicago, IL

June 2026 – Now

- Analyzed 60K+ customer feedback records in Python by examining comments, ratings, and review trends across product categories to identify recurring quality and performance patterns for the CX team.
- Built an AI-powered VoC pipeline pairing Python with LLM reasoning across signal detection, insight generation, and reporting, which turned raw data into structured insights and cut reporting time by 60%.
- Modeled organizational time and cost savings from workflow automation and pitched the opportunity to Lenovo CX leadership, securing CXO sponsorship for pilot deployment.

Hyde Park School of Dance | *Business Analytics Consultant* | Chicago, IL

Feb 2026 – May 2026

- Integrated data from 4 operational platforms (enrollment, ticketing, fundraising) and 30+ raw exports by standardizing data structures, reconciling inconsistent records, and creating a unified view for business analysis.
- Built student enrollment dashboards by defining and tracking KPIs such as student retention, class capacity utilization, and tenure to evaluate class performance; surfaced acquisition gaps across 15+ dance programs.
- Segmented students and external ticket buyers via composite key across enrollment and ticketing platforms that uncovered ~40% cross-selling and marketing opportunities.

Antenna | *Media Relations Intern* | New York, NY

June 2024 – Aug 2024

- Maintained performance dashboards tracking 45+ media outlet reach, article performance, and campaign progress across client accounts, producing weekly reports that informed client communication decisions.
- Coordinated healthcare campaign reporting across clients and media outlets by tracking placement outcomes, monitoring campaign progress, and consolidating results into structured updates for internal and client review.

Ogilvy | *Analytics & Consumer Insights Intern* | Shanghai, China

June 2023 – Aug 2023

- Delivered end-to-end consumer insights for a healthcare client by conducting patient research, analyzing survey responses, and building Tableau dashboards that informed campaign targeting and creative direction.
- Evaluated A/B tests across 10 creative variants for e-commerce campaigns, measuring CTR and conversion to recommend creative selection and on-site conversion improvements.

Accenture | *Marketing Analytics Intern* | Shanghai, China

Oct 2021 – Dec 2021

- Developed cross-platform social media measurement framework across 4 channels, tracking engagement and audience growth to surface a platform strategy that drove ~130% lift on user generated content.
- Produced daily social listening reports by monitoring brand mentions, customer sentiment, user engagement, providing brand health signal that informed marketing team weekly campaign decisions.

PROJECTS

Engagement and Retention Analytics | SQL, Tableau | [Portfolio](#)

- Built analytics dashboard integrating 68K+ engagement records across course, exam, and subscription data to track student onboarding, free-to-paid conversion, and course-level engagement metrics.
- Designed cohort and funnel views in Tableau segmenting free versus paid users to surface retention drop-off points, informing course design priorities and subscription monetization strategy.

E-commerce Performance and Channel Analytics | SQL | [Portfolio](#)

- Analyzed 6 databases across sessions, orders, and campaigns to evaluate channel efficiency, quantifying a 4x desktop-to-mobile conversion gap that informed bid reallocation across paid campaigns.
- Diagnosed conversion funnel bottlenecks across landing pages, product pathing, and billing flow, translating A/B test lift on a redesigned billing page into site optimization and revenue impact recommendations.

LANGUAGES / SKILLS

Language: Fluent in English and Mandarin, Conversational in Portuguese

Software & Tools: SQL, Tableau, Power BI, Python, R, Advanced Excel, Git, LLM APIs

Analytical Skills: EDA, Dashboarding, KPI Design, A/B Testing, Data Integration, Statistical Modeling
